- Level 2 Club Coach in Peterborough September 2021

Clubs can now access in-person and virtual Safeguarding Courses approved by BR.
Clubs are now able to run in-person First Aid courses.

Club Training Needs Analysis

A message was sent to clubs asking for their coach training requirements so that the team could be ready to deliver courses once restrictions allowed in 2021. However only 3 clubs returned with their requests,

Funding for Level 2 and 3

The region has continued in 2021 to offer up to one third funding towards L2 coaching courses, both Session and Club Coach. This has been accessed by a few clubs this year and we would request this funding continues into 2022.

The National Coaching Committee

This committee has continued to meet during 2021 with attendance improved through using the virtual platforms. Currently the strategies for coaching, and the services that support the delivery of education, training and learning are being developed following the education and training review.

Other Updates

Tracy Muir will step down as Chair of this Committee, however still be involved in the committee itself. All funding requests will now be dealt with by Ian Bardrick, secretary for the coaching committee.

Thankyou to the Regional Coaching Committee for their support, willingness and delivery of courses to meet demand within the region.
